Hello,

Thank you for taking the time to learn about myself and my skills, please reach out if you have any questions.

Education

August 2017 - May 2021

University of Central Florida, Orlando - *Bachelor of Science - Environmental Studies*

Certificates

- *Geographic Information Systems*
- *Coding Boot Camp Program - graduation November 23, 2021*

Bio

As well as brief experience with intro level C programming, I have experience with MERN stack development from the computer science boot camp. Although I find JavaScript to be my language of choice so far, I enjoy the challenge of learning something new. I am also comfortable with both SQL and NoSQL database management.

I have project-related experience using both ArcGIS and ArcMap for model-building and geostatistical analyses.

My volunteer experience from my degree program provided me with experience in habitat management and restoration. Originally from Florida, I am versed in the principles of ecology as well as ecological data collection and analysis methodologies.

Previous Work and Volunteer Experience

Coffee Factory and Cafe, Orlando- *Barista*

Brevard County Enchanted Forest, Brevard County, Florida - *Volunteer*

Orange County Environmental Protection Division, Orlando - *Volunteer*

Junior's Pizza and Wings- *Cashier*
